

About PlanWell

PlanWell® systems and Rotolite Elliott Corporation make the process of managing construction plans on the Web easier, faster and more efficient. These tools combine the services of Rotolite Elliott with convenient online tools for organizing, distributing and tracking plans and their users.

PlanWell Enterprise: Overview

The most commonly used and widely available online plan room in the industry today, Enterprise offers power, convenience and comprehensive services for all your plan management needs.

Manages and tracks your project plans and specs - find any plan at the click of mouse (and never lose one again!)

Manages and tracks the users of your project plans and specs - know who got what and when

Allows users to order prints and arrange their delivery – Rotolite Elliott Corporation does the printing and distribution

Compiles a historical record and archives your plans and specs as documents are added to the plan room - close the job and the archive is finished (no "after-the-fact" archive compilation)

Create a Master Address Book – A list of all your contacts – from this list you choose who you want to include in your bid invitation

Simply provide Rotolite Elliott with project plans and specs (electronically or in paper form), indicate how you would like them organized - by discipline, CSI code, historical issue, etc. - and who should have access to them. The content provider typically pays a small document management fee for the use of the system, but other users of the system simply pay for their normal reprographic services, nothing more.

PlanWell EWO: Overview

PlanWell EWO is an electronic work order available online from Rotolite Elliott Corporation. The next time you need to order, reach for the mouse and your internet browser instead of reaching for a paper order form or the phone.

From the EWO homepage you can order any service or any product Rotolite Elliott carries with a few clicks of the mouse. After specifying what you need, a simple upload process puts your digital files in the capable hands of Rotolite Elliott's production staff.

Use the EWO for any digital reproduction job:

- Large-format black & white
- Large-format color (including finishing)
- Small-format black & white (including binding)
- Small-format color

Upload jobs to the Rotolite Elliott online plan room

Any supply order for paper, toner, architectural, engineering & drafting supplies can be placed online.

You can even specify production options and schedule a pickup for hardcopy originals!

If you already use PlanWell Enterprise with Rotolite Elliott, the transaction will be even easier with the familiar and easy-to-use interface.

PlanWell Bidcaster: Overview

BidCaster Your Online Invitation-to-Bid Solution

PlanWell BidCaster is one of the most convenient, easy-to-use online tools for facilitating the ITB (invitation-to-bid) process. It turns your Internet browser into a time-saving and hassle-free system for managing your bidding tasks. PlanWell BidCaster allows you to send hundreds of ITBs via email or fax, right from your computer. Plus bidders can preview plans and specs and indicate their interest in your projects, from a single bid invitation. It's the key to ensuring your ITBs are as complete as they can be.

Turn your Internet browser into a time-saving and hassle-free way to manage all of your bidding tasks, with PlanWell BidCaster.

- Lower your pre-construction costs.
- Dramatically reduce time and labor for you and your bidders.
- Be more competitive by receiving more bids.
- Bid on more projects.
- Track your bid responses easily and conveniently.

Assemble all project information once for all bidders and all broadcasts.

- Outsource document management and production - let your PlanWell® reprographer, Rotolite Elliott Corporation, manage your plans and specs and let your bidders view and order plans online through PlanWell Enterprise.
- Broadcast all emails and faxes at once - no more standing around at the fax machine for hours or needing to make tons of phone calls.
- The ability to send out addendums and revision notifications
- Track successful and failed invitations in real time - PlanWell BidCaster tells you when an email or fax wasn't received, so you can update contact information as it's needed (not when it's too late).
- Save your bidder's time and effort - one email allows recipients to read the project description, view the plans, and respond to the invitation. With PlanWell BidCaster a sub contractor or supplier can decide whether or not to bid on your job in 30 minutes or less, without a trip to your office or the local plan room.

Bid better, faster, and more competitively with PlanWell BidCaster (SM) at Rotolite Elliott Corporation.
